

*****Continuing with popular new program options!*****

2020 Annual Academy for Lab Safety Excellence

You are a lab safety professional, and people are looking to you to properly manage your entire lab safety program. Whether you are new in the role or have many years of experience, it can be difficult to figure out how you will do that. Your time is valuable, and these updated virtual training options will provide you the opportunities you need to improve your overall **Lab Safety Culture!**

With innovative programs and diverse option offers, the **2020 Academy for Lab Safety Excellence** will make you a **safety champion** and a **safety leader** for your laboratory team!

Over 1,000 of your colleagues have participated in the Academy for the past 10 years. The 2020 Academy is a perfect way to advance your lab safety knowledge if you:

- Find it frustrating to locate safety information from a variety of sources
- Want to expand the impact of your lab safety expertise
- Want to increase your effectiveness in educating staff on lab safety issues
- Need ready access to colleagues whose expertise in lab safety is well known
- Would like to network with your peers on a regular basis for lab safety ideas
- Have a limited budget for safety education

Your Lab Safety colleagues have this to say about the annual Academy:

"I have been Lab Safety Officer for 12+ years and QLS-certified since 2013, and I am relishing every opportunity to learn more about lab safety. The Safety Academy is the perfect occasion for all levels of staff to gain more safety knowledge - those needing a lot of information and those needing review! Keeping current with the changing regulations and enforcing compliance is the key goal in keeping everyone safe while performing daily lab work!"

Linda Gylland, MLS (ASCP) CM, QLS CM – Laboratory Safety Officer, Sanford Health Fargo, ND

"Thanks to Dan, his resources and to the Safety Mastermind group, my laboratory safety program runs smoothly. I love all the tips and tools the Dan the Lab Safety Man provides to us as a group as well as to me individually."

Diana Hulihen, Safety/Point of Care Manager, St. Luke's University Health System, Pennsylvania

"I was a new Lab Safety manager and the resources Dan has provided has helped guide me in building my lab safety program. The Webinars, Mastermind groups, and email availability have been my Lab Safety Resources!"

Andrea Cammarata, Manager of Safety, Quality, and Competency, Tampa General Hospital, Tampa, Florida

Here are some exclusive offers in the 2020 program:

- **Because you demanded it!** Shorter 60-minute training sessions with more offered throughout the year!
- **Safety Mastermind Groups** - interactive sessions with fellow lab safety professionals - **the only such network available anywhere** where clinical lab leaders solve safety issues- a customer favorite!
- An electronic book offer for Option 3 purchases: *The Lab Safety Compliance Crosswalk*
- A GHS-compliant *Chemical Management* training DVD offer for Option 3 purchases.
- Access to the previous year's Academy recordings with option 3. A \$400 value!

All of the webinars will be held at 1 pm ET, noon CT, 11 am MT and 10 am PT and are **only 60 minutes in length.**

You can expect: Eight 60-minute webinars over a 12 month period with other members of the Academy to brainstorm safety issues and cover a particular safety topic including:

1. January 8, 2020 – **Human Risk Factors and Behavior in the Laboratory**

Is being human a risk when working in the laboratory? What strategies can be implemented to minimize the risks associated with several staff within a confined laboratory environment? Join special guest speaker Sean Kaufman as he uses his years of expertise to discuss the development of strategies aimed at developing and sustain a culture of laboratory safety.

Speaker: Sean Kaufman, MPH, CHES, CPH, CIC, Certified MBTI Personality Assessment Provider, CEO of Behavioral-Based Improvement Solutions, Executive Director of BioSafe360.

2. February 12, 2020 – **How to Create and Use Your Chemical Hygiene Plan**

Chemical management is one of the most complex aspects of the Lab Safety Program. More questions are asked about this topic than any other. Get your questions answered here- learn what you need to have in place to meet OSHA and other safety regulations, and learn how to develop a CHP and how to make sure it is followed in your laboratory.

Speaker: Dan Scungio, MT(ASCP)SLS, CQA (ASQ), Dan the Lab Safety Man™, Williamsburg, VA

3. April 8, 2020 – **The Mystery of Lab Safety Regulations**

Does OSHA really care about gum chewing in the lab? Why does my trash can need a sticker on it? Does my chemical waste need to be in my line of site? Getting buy-in from staff and having them follow safety regulations is difficult, and helping them to understand why the regulations exist can help with that. This session will help you understand the mystery of those strange regulations and even teach you how to dig deep to find those answers on your own.

Speaker: Dan Scungio, MT(ASCP)SLS, CQA (ASQ), Dan the Lab Safety Man™, Williamsburg, VA

4. May 13, 2020 – **Pre-Analytical Safety: Let's Get Started**

Safety starts at the beginning of the lifespan of a lab specimen. What regulations apply to blood collection? What do you need to know about processing safety guidelines? The details are all here- learn what you need to know to optimize safety from start to finish in the pre-analytical phase of lab testing.

Speaker: Dan Scungio, MT(ASCP)SLS, CQA (ASQ), *Dan the Lab Safety Man™*, Williamsburg, VA

5. August 12, 2020 – **High-Reliability Safety in the Laboratory**

High Reliability Organizations (HROs) are those which maintain consistent positive outcomes without major safety incidents. Is your laboratory a HRO? What would it take to get your lab to that level? Learn about the safety processes you need to have in place to be in that category and the checks that go along with them. Highly reliable safety is a possibility for you and your team.

Speaker: Dan Scungio, MT(ASCP)SLS, CQA (ASQ), *Dan the Lab Safety Man™*, Williamsburg, VA

6. September 9, 2020 – **The Lab Safety Professional-Know and Grow Your Role**

How does a lab safety professional find all of the safety regulations? How do they keep up with the latest information? How can you grow your career in such a role? Find out what tools you need to stay informed, involved, and to keep learning! This session discusses resources, educational tools, and will present information that can help you achieve your Qualification in Lab Safety from ASCP!

Speakers: Dan Scungio, MT(ASCP)SLS, CQA (ASQ), *Dan the Lab Safety Man™*, Williamsburg, VA

7. October 14, 2020 – **Train and Retain: Lab Safety Education**

How do you make Lab Safety training interesting? What elements are required, and how do you organize them? Learn how to develop and use training techniques that are proven to help people retain information better! Join special guest speaker Diane Davis, lab safety expert and author, as she explains the principles of a solid lab safety education program.

Guest Speaker: Diane Davis, Professor and Chair, Salisbury University Medical Laboratory Science Program

8. November 11, 2020 – **The Round-Up: What's New in Lab Safety?**

Another year has come to an end, and the Lab Safety regulations continue to change. Find out the latest rules and guidelines, and learn how to interpret them for your own lab. How can you keep up with these changes in the field? Tune in and find out- keep your lab up to date this year and into the future!

Speaker: Dan Scungio, MT(ASCP)SLS, CQA (ASQ), *Dan the Lab Safety Man™*, Williamsburg, VA

The Academy Provides:

- Timely updates via email with lab safety information before it is posted on the website or in the Safety Savvy newsletter
- Virtual training with guest experts in their field on a variety of lab safety topics
- Eight (8) P.A.C.E.® contact hours after successfully completing the Academy **(Options #2 and #3 only)**

The overall objectives are:

At the end of this program, participants will be able to:

- Locate up-to-date safety information from a variety of expert sources
- Prepare or modify policies and procedures to improve laboratory safety at your institution
- Provide effective programs to educate staff on laboratory safety issues

This program is an effective educational tool for lab safety professionals whether new to the job or with years of experience!

The value options:

- Option 1 includes:
 - the eight part lab safety webinar series (\$800 value) for up to ten (10) participants (per site)
 - (that's **only \$42 per session** if you use the early bird registration)
 - **does NOT include P.A.C.E.® contact hours** (see ****** below)
- Option 2 (your best value option) includes:
 - a one-on-one phone call between the site coordinator and Dan the Lab Safety Man™, a lab safety expert with over 25 years in the field prior to the start of the series (\$150 value)
 - the eight part lab safety webinar series (\$800 value) for up to ten (10) participants (per site)
 - eight (8) P.A.C.E.® contact hours of continuing education that can be used for recertification or licensure for up to ten (10) participants
 - access to current safety information as it applies to the clinical laboratory from a variety of experts and sources
 - enrollment in the 2020 Safety Mastermind Group
 - unlimited access to laboratory safety experts until December 2020
 - networking opportunities with your fellow safety officers to solve your safety issues in real time and avoid heavy OSHA penalties or lack of accreditation due to safety issues by CAP, COLA or the Joint Commission (priceless!)
- Option 3 includes:
 - a one-on-one phone call between the site coordinator and Dan the Lab Safety Man™, a lab safety expert with over 25 years in the field prior to the start of the series (\$150 value)
 - the eight part lab safety webinar series (\$800 value) for up to ten (10) participants (per site)
 - eight (8) P.A.C.E.® contact hours of continuing education that can be used for recertification or licensure up to ten (10) participants
 - access to current safety information as it applies to the clinical laboratory from a variety of experts and sources
 - enrollment in the 2020 Safety Mastermind Group
 - unlimited access to laboratory safety experts until December 2020
 - one copy of **The Lab Safety Compliance Crosswalk - eBook**, authored by Dan Scungio and published by HCPro in 2017 (\$130 value)
 - one print copy of **101 Lab Safety Questions and Answers** authored by Dan Scungio (\$15 value)
 - Access to all eight 2019 Safety Academy webinar recordings all year (\$400 value).
 - A copy of the Dan the Lab Safety Man/Safety Lady DVD Chemical Management (GHS-compliant), complete with leader's guide and quiz perfect for training staff (\$125 value).
 - Networking opportunities with your fellow safety officers to solve your safety issues in real time and avoid heavy OSHA penalties or lack of accreditation due to safety issues by CAP, COLA or The Joint Commission (priceless!)

NEW! A La Carte Options:

- Choose one or more individual virtual training sessions- pick your favorites! - \$125 each
- PACE credits for individual sessions or for all sessions in option 1- \$5 each of \$15 for all 8 sessions
- Join the Safety Mastermind Group for the year with option 1! - \$75 per person
- Purchase the Academy for multiple sites- ask for discounts!
- a one-on-one phone call between the site coordinator and Dan the Lab Safety Man™ - \$50 each

The investment:

Option 1 - \$435 **per site** – (\$600 value) – does **NOT** include P.A.C.E.® contact hours (see ****** below)
Option 2 - \$625 **per site** – (\$750 value) includes 8 P.A.C.E.® contact hours for up to 10 participants
Option 3 - \$995 **per site** – (\$1,525 value) includes 8 P.A.C.E.® contact hours for up to 10 participants

Early Bird Registration

If you register **before December 1, 2019** you can **SAVE \$100** off any one of the options as follows:

Option 1 - \$335 per site– (\$600 value)– does **NOT** include P.A.C.E.® contact hours (see ****** below)
Option 2 - \$525 per site – (\$750 value) includes 8 P.A.C.E.® contact hours for up to 10 participants
Option 3 - \$895 per site – (\$1,525 value) includes 8 P.A.C.E.® contact hours for up to 10 participants

Are you only interested in a few of the programs?

- Each individual session can be purchased for \$125
 - **Early Bird before 12/1/2019 - \$99 per program**

****Do you have a group at your site and plan to sign up for Option 1 but need P.A.C.E.® contact hours for the employees that participate?**

- **8 P.A.C.E.® contact hours are available for an additional cost of \$15 per person for the series.**

Are you on a limited budget and need to make installment payments?

- **Call 877-894-7004 for more information**

Why such a bargain?

Where else can you jump start your clinical laboratory safety knowledge for pennies on the dollar. Travel budgets are cut, staffing is short and you know where your learning gaps are but you would like one-stop shopping for your safety information. Well here it is and we've made it easy to get what you need even if you have to pay for it yourself.

This program is an ideal way to get continuing education for you and your staff without having to leave your laboratory! Are you too busy to view the scheduled live webinar? No problem! You can view the recorded session until the end of the year at your convenience. Do you have questions about the session? You can always contact Dan the Lab Safety Man or other members of the Academy to get answers.

Four ways to register for the 2020 Academy:

1. Fill out the order form and fax it with your **Purchase Order** to **815-301-9814**.
2. Fill out the order form below and mail it with a **Check** made out to **Dan The Lab Safety Man** to the address below.
3. Make payment through **PayPal™** (may also use credit card here) at <http://www.danthelabsafetyman.com/products.html>
4. Fill out the order form, fax it in and call 877-894-7004 to pay by **credit card**.

Order Form:

Sign me up for Option # _____ at \$ _____

Sign me up for the following sessions: _____ at \$125 each for \$ _____

This order form MUST accompany a purchase order or check.

When using PayPal®, please fax this order form to 815-301-9814 to ensure the site coordinator is properly identified and can receive the program materials.
