# Safety Webinars

**You can expect: Eight webinars over a 12-month period with other members of the Academy to brainstorm safety issues and cover a particular safety topic including:**

**1**

## **JANUARY 13<sup>TH</sup>, 2027: THE LAB SAFETY OFFICER PLAYBOOK: BUILDING A PROGRAM THAT WORKS**

Being the lab safety officer involves much more than inspections and paperwork. Learn how successful safety leaders organize their responsibilities, prioritize projects, gain management support, communicate effectively, and build a sustainable safety program. Whether you're new to the role or a seasoned professional, you'll leave with practical tools to become a more confident and effective safety leader.

**Speakers:** Dan Scungio, MLS (ASCP)SLS, CQA (ASQ), Jason P. Nagy, PhD, MLS (ASCP), QLS

**2**

## **FEBRUARY 10, 2027: CHEMICAL SAFETY SIMPLIFIED: THE SDS, SPILLS, AND SAFE DECISIONS**

Chemical safety doesn't have to be complicated. Learn how to quickly navigate Safety Data Sheets, perform practical chemical risk assessments, respond appropriately to laboratory spills, and understand common OSHA and EPA requirements. Discover simple strategies that reduce risk while improving staff confidence around hazardous chemicals.

**Speaker:** Dan Scungio, MLS (ASCP)SLS, CQA (ASQ)

**3**

## **APRIL 14, 2027: THE HUMAN SIDE OF SAFETY: WHY SMART PEOPLE MAKE UNSAFE CHOICES**

Rules alone don't change behavior. Join internationally recognized safety expert Sean Kaufman as he explores the psychology behind laboratory safety decisions. Learn why people bypass safeguards, how habits are formed, and proven techniques for creating lasting behavior change. Walk away with practical strategies to improve safety culture through coaching, observation, and positive reinforcement.

**Speaker:** Sean Kaufman, MPH, CHES, CPH, CIC

**4**

## **MAY 12, 2027: BIOHAZARD BASICS: PREVENTING EXPOSURE BEFORE IT HAPPENS**

Every specimen deserves respect. Explore practical methods for identifying biohazard risks, selecting appropriate PPE, safely handling infectious materials, minimizing aerosol generation, and responding effectively to exposures. Learn how to strengthen everyday biosafety practices that protect both laboratory professionals and patients.

**Speaker:** Jason P. Nagy, PhD, MLS (ASCP), QLS

5

#### **AUGUST 11, 2027: INSPECTION READY EVERY DAY: PREPARING FOR OSHA, CAP, AND BEYOND**

The best laboratories don't prepare for inspections—they stay prepared. Discover what inspectors consistently look for, common deficiencies, documentation strategies, and practical ways to conduct meaningful internal audits. Learn how to reduce last-minute stress while building continuous compliance throughout the year.

**Speaker:** Dan Scungio, MLS (ASCP)SLS, CQA (ASQ)

6

#### **SEPTEMBER 8, 2027: THE HEINRICH TRIANGLE: PREVENTING TODAY'S NEAR MISS FROM BECOMING TOMORROW'S INJURY**

Every serious injury begins with smaller warning signs. Explore Heinrich's Safety Triangle and learn how near misses, unsafe conditions, and at-risk behaviors predict future incidents. Discover practical ways to collect meaningful data, encourage reporting, and intervene early before accidents occur.

**Speaker:** Dan Scungio, MLS (ASCP)SLS, CQA (ASQ)

7

#### **OCTOBER 13, 2027: CULTURE SHIFT: TURNING SAFETY INTO A HABIT**

Safety isn't something people do because you're watching—it's what they do when no one is watching. Learn how laboratory leaders influence behaviors, create accountability, reinforce positive habits, and build a culture where safety becomes second nature rather than another policy to follow.

**Speaker:** Dan Scungio, MLS (ASCP)SLS, CQA (ASQ)

8

#### **NOVEMBER 10, 2027: RISKY BUSINESS: FINDING HAZARDS BEFORE THEY FIND YOU**

The safest laboratories don't wait for accidents—they look for warning signs first. Learn practical techniques for performing laboratory risk assessments, identifying hidden hazards, prioritizing corrective actions, and preventing incidents before they occur.

**Speakers:** Dan Scungio, MLS (ASCP)SLS, CQA (ASQ), Jason P. Nagy, PhD, MLS (ASCP), QLS

**All webinars will be held at 1 pm ET, noon CT, 11 am MT and 10 am PT and are 60 minutes in length.**

## What Participants Say:

Shawna Kaser,  
Ohio State University Labs  
Columbus, OH

"I've been a part of the Academy for Lab Safety Excellence for almost three years. I greatly appreciate the knowledge and tools provided by Dan, Jason, and the other members of the teaching team. This program has given me the confidence and resources needed to become a stronger and more effective safety leader within my organization."

Diana Hulihan,  
St. Luke's University  
Health Network,  
Bethlehem, PA

"I have participated in the Safety Academy for many years. Dan and his team consistently deliver laboratory safety topics in a fresh, engaging way, making it easy to return each year and share valuable updates with my lab staff."

"The Safety Academy Program is fantastic. The presentations are well done. The information is spot on. Participating in the program has added value to our Laboratory Safety team and ultimately to our organization. Kudos to Dan and team for keeping us up-to-date and helping us maintain safe Laboratory environments."

Mike Lonigro, Advocate  
Clinical Laboratory,  
Rosemont, IL

"Lab staff consistently find the webinars to be valuable refreshers, often gaining new insights with each session. As the Lab Safety Coordinator for my region, I also find the Safety Masterminds meetings highly beneficial for networking and learning. Engaging with counterparts across diverse practice settings provides valuable perspectives and practical approaches to addressing common lab challenges. Dan and his guest speakers' expertise in lab safety is extremely beneficial for those who seek to gain more knowledge to apply towards their lab's safety program. I highly recommend it for anyone who prioritizes quality and safety in their lab!"

Theresa Umipeg, UCHHealth  
Memorial Hospital Central,  
Colorado Springs, CO
